MANAGEMENT SERVICES
FOR LANDLORDS**

TRANSFORM YOUR RENTAL PROPERTY INTO A HOLIDAY LET/ SHORT LET UNIT

Vacant property?

Do you have a vacant rental property? This is the perfect opportunity to consider transforming it into a holiday let.

Some landlords are changing their approach, moving from the standard AST to the short-let strategy, and really benefiting from it. And you can be one of them!

If you, however, don't have time to manage the daily tasks, we can help!

In this guide, we explain in detail the benefits for landlords as well as our services. Keep in mind though that our offering is flexible, and can be tailored to your needs.

We're Helen and Juliana.

We are experienced short-let/ serviced accommodation managers with a small portfolio of units.

We are fully involved in all daily activities and tasks from property to guest management and pride ourselves on providing the highest service standards.

We are based near Gatwick Airport, so we can easily cover most of the South of England. Even though we do work with professional and trusting cleaning and maintenance teams, we still like to inspect our properties personally and regularly.

We treat your property as if it was ours.

WHAT IS SERVICED ACCOMMODATION?

Also called holiday let, corporate let or short let, in a nutshell, it's a home away from home. The property, fully furnished and decorated, is occupied by guests who stay for a short period of time - think of AirB&B or Booking.com.

As travellers look for more flexible and cost-efficient ways to spend time away from home, there is a rapid increase in the demand for this type of accommodation. This is just the right time to get involved!

BENEFITS A SHORT-LET OFFERS TO LANDLORDS

Higher income

As a holiday let is rented on a nightly basis, your monthly income could be higher than an AST.

Lower risk

Guests will stay for shorter periods of time at the property, which means the risk of problem occupants is lower.

No arrears

Guests pay for the accommodation before they check-in.

Professional cleaning

A professional team cleans the property after every guest.

Regular inspections

The condition of the property is regularly checked after every check-out. Any potential issues can be quickly remedied, saving time and money.

More time, with us

If we team up, we will manage all aspects of your unit, which means you will have more free time to enjoy other activities or to invest in other areas of your business.

KEY QUESTIONS, ANSWERED

How do you charge for your services?

We charge a fixed percentage of the income received monthly.

Do I need to get involved at all?

Your level of involvement is completely up to you. If you prefer to leave it all to us, we will manage all tasks and keep you informed of key updates and progress.

Who pays for cleaning and linen change over?

If you don't have a support team yet, we will find the right professionals to work with in your area, including cleaners - and will manage them, ensuring your property is always ready for the next guests.

The cleaning fee is usually added to the price of the stay, and therefore it is effectively paid for by the guest.

How are the consumables managed? Who pays for them?

If you plan to offer consumables (usually expected by guests), we can manage their inventory and purchase, and then invoice you for the cost. Alternatively, if you prefer to buy and provide these items, we can inform you when they are needed.

Which consumables are usually offered?

We would recommend: coffee, tea, sugar, milk, biscuits, oil, olive oil, salt, mini-toiletries, basic cleaning products such as washing-up liquid, sponges, cloths, washing powder/capsules. If you'd like to offer anything else, which can set your property apart from other listings, we can research and suggest ideas.

KEY QUESTIONS, ANSWERED

If the property needs maintenance, who manages it?

We are also happy to manage any maintenance work your property may need. We can contact professionals in the area to request quotes and liaise with your preferred contractor to schedule and monitor the work.

Who decides the nightly rate?

As part of our services, we will research the average nightly rate in your area for similar properties and recommend to use that as a base. We will set up a dynamic pricing system that automatically adapts the price based on seasonality and availability. We also manually check and amend the rates when there are gaps/voids to minimise those.

Can I see the bookings received?

Yes, we can give you access to the calendar, so you can see past and upcoming bookings.

How and when do I receive the income from my property?

At the beginning of each month, we will send you a landlord pay-out summary, describing the gross amount received for bookings with a check-out day during the previous month, OTA commission, our management fee, cleaning costs and any other costs, such as consumables and maintenance, when applicable.

The remaining total will be transferred to the bank account you provided to us within the first week of each month.

LANDLORD TESTIMONIAL

We currently manage a property in Reading. We care for all aspects of this flat, meaning that the landlord doesn't need to worry about a thing - and guests can enjoy a lovely and homely stay during their leisure or business trips.

Helen and Juliana are renting one of my properties in Reading. I am more than happy with their friendly but professional attitude and look forward to our business relationship expanding in the future, as this was my first experience in R2R and they have made the transition from BTL a very smooth ride. Thanks.
Steve, landlord

WHAT OUR GUESTS SAY

For us, a positive review goes much deeper than boosting our listings on OTAs. Even though that is major too, especially in order to maintain a high occupancy rate, a positive review means the guest had a great experience - and THAT'S what's really important.

It makes us so happy to be able to provide this to our guests.
